

Customer Case - 2/27/2019

New in this release

Added a capability to create a feedback widget for a specific forum.

Now you can collect more feedback from your customers and get insights into the features they want to see in your products and services.

The screenshot shows a Confluence page for 'Smart Attachments for Confluence'. The page header includes navigation links for 'Пространства' and 'Пользователи', a search bar, and a 'Войти' button. The main content area features a purple banner with the text 'Join our Slack workspace to get the latest updates on the app development, provide feedback, and vote on features in the backlog.' and a yellow 'Join Slack workspace' button. Below this is a video player showing a presentation slide titled 'Smart Attachments for Document Management in Confluence...'. The video player includes a play button, a progress bar at 0:26 / 1:48, and a red 'Embed folders with documents' button. To the right of the video is a 'Can't get started?' section with two buttons: 'Submit idea' and 'Report Issue'. Below these buttons is a list of links: 'Installing the Add-on', 'Managing documents', 'Managing folders', 'Managing the Folder attachments macro', 'FAQ', 'Release Notes', and 'Privacy Policy'. The page footer shows 'Overview' and a blue speech bubble icon.

Fixed in this release

- Resolved the issue with selecting the incorrect issue type for requests submitted by email.
