

Table Viewer

You can view files with the *.csv and *.tsv extensions as tables with header and sorting capability.

The screenshot shows the Bitbucket Source page for a repository named 'demo-repo'. The file 'Items.tsv' is open, and the 'View as table' option is selected. The table displays 8 rows of data with the following columns: Id, Label Name, Label Category, Subcategory, Service Level, Lead Time, Stock On Hand, Stock On Order, and Lot Multiplier.

To view a CSV or TSV file as a table:

1. Navigate to the Source section on the left-hand sidebar in your repository
2. Locate a file you would like to view
3. Select the 'View as table' option in the 'Default File Viewer' menu:

This screenshot shows the same Bitbucket Source page as above, but with the 'Default File Viewer' dropdown menu open. The 'View as table' option is highlighted, demonstrating how to access the table view.
