

# Customer Case - 2/23/2017

## New in this release

Added the Forums section into JIRA header menu.

Now you can quickly access the appropriate forum while working in JIRA. Now JIRA administrators, as well as project administrators, can quickly manage available forums without accessing JIRA administration console.

The screenshot shows the JIRA Forums interface. At the top, there is a navigation bar with a hamburger menu, a search bar, and a 'Create' button. Below the navigation bar, the page title is 'Customer Case Forums' with a 'Create new forum' button. On the left, there is a sidebar for 'FORUM TYPES' with options for 'All forum types', 'Support', 'Private', and 'Public'. The main content area is titled 'Public Forums' and contains a table with the following columns: Forum, JIRA Project, Forum Type, and Actions. The table lists several forums, each with a 'FEEDBACK' button and 'Edit · Restrictions · Delete' actions.

Forum	JIRA Project	Forum Type	Actions
Smart Attachments Forum	Smart Attachments	FEEDBACK	Edit · Restrictions · Delete
Customer Case Forum	Customer Case	FEEDBACK	Edit · Restrictions · Delete
TeamCity Integration Forum	TeamCity Integration	FEEDBACK	Edit · Restrictions · Delete
Table Filter and Charts Forum	Table Filter and Charts	FEEDBACK	Edit · Restrictions · Delete
Evernote Integration Forum	Evernote Integration	FEEDBACK	Edit · Restrictions · Delete
Handy Macros Forum	Handy Macros	FEEDBACK	Edit · Restrictions · Delete
Awesome Graphs Forum	Awesome Graphs	FEEDBACK	Edit · Restrictions · Delete
No Email Storm Forum	No Email Storm	FEEDBACK	Edit · Restrictions · Delete
File Viewer		FEEDBACK	Edit · Restrictions · Delete
InPlace Editor		FEEDBACK	Edit · Restrictions · Delete
Virtual Agents		FEEDBACK	Edit · Restrictions · Delete

View and manage forums while working in JIRA

## Fixed in this release

- Resolved the issue with the multiple hyphens following each other in the idea or forum URL address if the idea or forum name contains special characters placed next to each one.
