

Table Filter and Charts 3.4.2

New in this release

The new version of add-on includes the following features:

- Added support for Future macro from Bob Swift.
- Added output of chart values as hints when hovering over.

Fixed in this release

- Resolved the compatibility issues when migrating from the add-on version 1.5.2 to the latest versions.
- Resolved the issue with abnormal expansion of the table generated by the Page Properties Report macro with the activated option to fit the table to screen area.
- Resolved the issue with the non-saving of the value for the Hide Source Table option in the body of the Chart from Table macro.
- Resolved the issue with incorrect output of the collapsed filtration pane with the enabled option to fit a table to screen area.
