Customer Case - 2/24/2016

New in this release

The new version of add-on includes the following features:

- Configured two types of notifications about the request submission for the existing and new users.
- Added retrieval of the username from email address for display as the author of support requests submitted by anonymous users.

Fixed in this release

- Unified the punctuation marks in email notifications.
- Resolved the issue with showing 'Idea not found' when opening the idea from email notifications.
