

Configure Handy Macros for Confluence

- [Create a set of statuses](#)
- [Edit sets of statuses](#)
- [Remove sets of statuses](#)
- [Add statuses to a status set](#)
- [Use minimal width for Handy Status](#)
- [Edit statuses in status set](#)
- [Remove statuses from status set](#)
- [Enable or disable macros on the instance level](#)

Configuring sets of statuses

 Confluence Administrator should configure statuses sets before use. See more details in the [user's manual](#).

 Please note that all sets and statuses are available to the all Confluence users.

Confluence Administrator can configure different status sets. Status sets can be configured using the "Handy Macros Settings" in the Confluence Administrator console (**Confluence Administration > General Configuration > Handy Macros Settings**).

Creating set of statuses

1. Enter the name of set.
2. Click **Add**.

Settings

Configuring statuses

Adding statuses to status set

1. Locate and click the appropriate status set.
2. Enter status name.
3. Pick the color for text and background. There is a three ways to do so:
 - a. Select the color using the colorpicker
 - b. Specify color by the text (green, black and so on)
 - c. Specify color hex code
4. Click **Add**.
5. Repeat steps 1-4 to add as many statuses as you need.

Using minimal width for status macros

This feature is available starting from [Handy Macros 1.10.0](#).

This option allows you to make your status macros smaller when short texts for statuses are used.

1. Click the appropriate status set.
2. Click the cogwheel icon and select the **Use minimal width** option.
3. Click **Save**.
