560715213	1049.75	14.70	Mortgage Loans	Gustavo Sanchez	9/11/2016	Business	Rejected	3572ADAH1562

Set the custom date ranges in the +/-Ny, +/-Nm, +/-Nd format for dynamic table filtration.

The new version of add-on also includes the following features:

- Added a capability to define the date format in the page view mode.
- Added a capability to count multiple values separated by the specific delimiter with the Pivot Table macro.
- Added the OR operator for filtering data with multiple filters.
- Added a capability to process multiple values separated by symbol as independent values in the dropdown filter.
- Added support for processing multiple emoticons placed within the same table cell for the Table Filter and Pivot Table macros.
- Added a capability to generate a pivot table against states of checkboxes.
- Added a capability to filter, summarize and visualize worklogs and duration intervals.
- Added a capability to enter custom labels for filters on the filtration pane.
