

Table Filter and Charts 3.9.1

New in this release

The new version of add-on includes the following features:

- Added a capability to filter multiple tables used as source for generating multiple charts with one Table Filter macro.
- Added the processing of the fixed width of table columns when exporting filtered tables to PDF files.

Fixed in this release

- Resolved the issue with the non-working horizontal scroll bar when enabling the Fit table to screen area option.
- Resolved the issue with the incorrect width of table header columns with the enabled Fit table screen area option for the table with columns of fixed width.
