Table Filter and Charts 3.9.7

New in this release

The new version of add-on includes the following features:

- Added a capability to export clickable links to CSV files and added an option to define the list separator.
- Added the automatic retention of the last used date format for users when they work with the date range filter.
- Improved compatibility with Confluence 6 editor, so now the row numeration, sparklines, and the Fit table to screen area options are properly initialized.
