

Smart Attachments 1.15.1

New in this release

The new version of add-on includes the following features:

- Improved the speed of loading the project administration section on large JIRA instances with thousands of users, user groups and project roles.
- Improved the speed of running attachment indexation and corrected display of indexed information.
- Added the mechanism that fires an event when the user edits a file in MS Office.

Fixed in this release

- Resolved the issue with saving access restrictions when the username, name of the user group or project role contains the apostrophe.
- Resolved the issue with XSRF check failure when opening the project administration section.
