Table Filter and Charts 3.9.8

New in this release

The new version of add-on includes the following features:

- Added the **yy/mm/dd** date format into the default list of date formats for the date range filter.

Fixed in this release

- Resolved compatibility issues with PocketQuery add-on.
- Resolved the issue with display of one row in a table generated by the Page Properties Report macro when navigating through multiple pages on the pagination block.
- Resolved the issue with copying the URL to pre-defined filtration results in Safari browser.
