Smart Attachments 1.15.2

New in this release

The new version of add-on includes the following features:

- Updated REST API of the add-on. Now it returns attachment ID's for files stored as uncategorized (in the default category).

Fixed in this release

- Resolved the out-of-memory issue when downloading large attachments (greater than 100Mb) in JIRA.
- Resolved the issue with the direct insertion of images into issue comments by pressing Ctrl + V.
- Resolved the issue with attachment size limitations when uploading or moving files between categories by drag-and-drop.
- Resolved the issue with the incorrect positioning of the number of filtered items when applying JQL query.
