Table Filter and Charts 3.10.8

New in this release

The new version of add-on includes the following features:

- Added a capability to append the modificator ' * ' (asterisk) to the number value set for the Show first N rows option. This modificator allows you to preserve the first rows of the table even when they do not match the specified filtration criteria.

Fixed in this release

- Resolved the compatibility issue with the tables generated by Scaffolding macro. The first row after the table header was lost in Internet Explorer 11.
