

How to use Pivot Table macro

Pivot Table is one of the macros bundled in the [Table Filter, Charts & Spreadsheets](#) app. The macro allows you to summarize your table data and produce its aggregated view in the form of a pivot table. You can select the appropriate operation types as follows:

- Sum
- Count
- Minimal and maximal
- Average
- Literal

Add Pivot Table on the page

Step 1. Add the macro to your table. Choose the handy way to do this:

In the page **view** mode

Read more:

- How to insert and remove the macros
