Table Filter and Charts 3.12.4
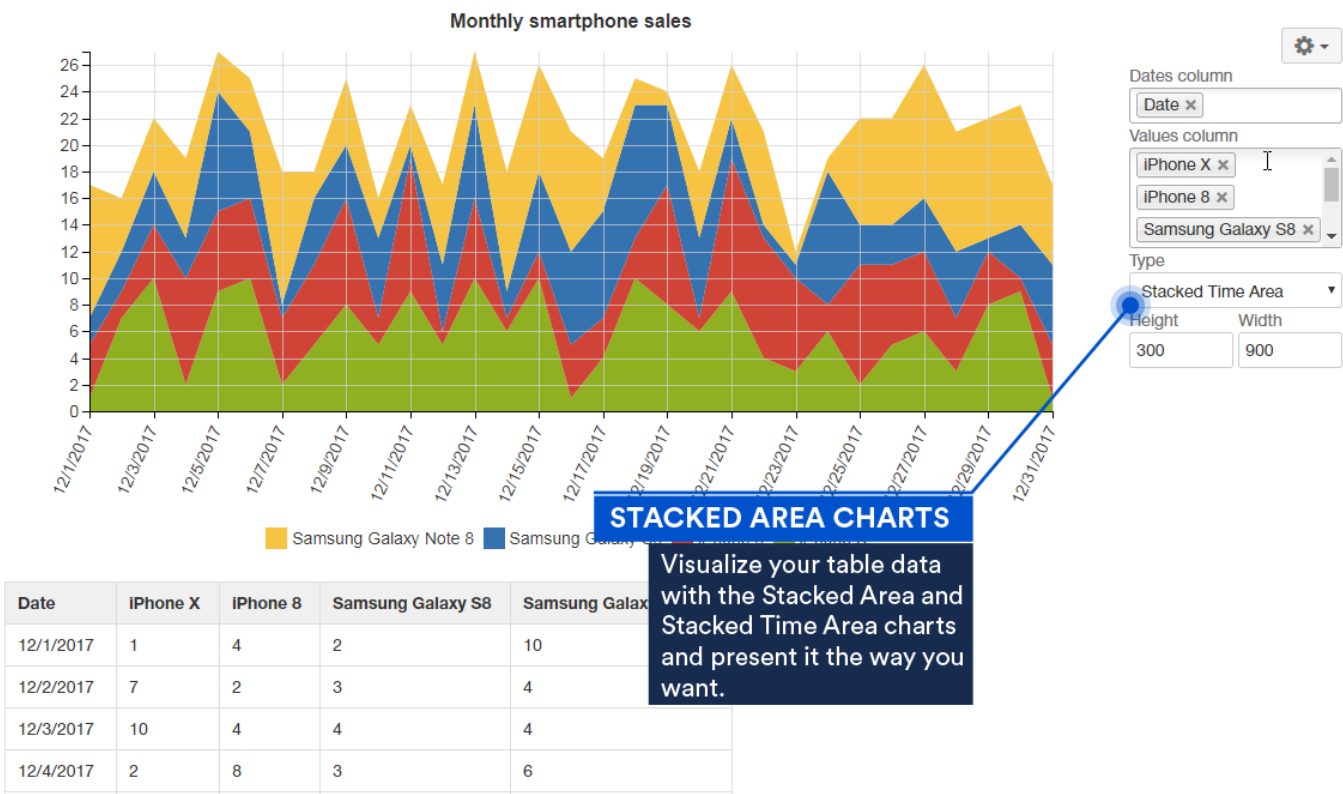

New in this release

Added support for Stacked Area and Stacked Time Area charts.

Now you get more options to visualize your data in Atlassian Confluence.

The new version of add-on also includes the following features:

- Improved compatibility with the Space Attachments macro.
- Disabled display of null values on the bar and column charts.

Fixed in this release

- Resolved the issue with incorrect summarization of table data with the Pivot Table macro if the same label is used in multiple columns or rows of the table.
