

TeamCity Integration for JIRA 1.6.1

27 August 2013

StiltSoft is happy to announce the release of TeamCity Integration for JIRA version 1.6.1

What's New

Improved TeamCity 8 compatibility

This is a must-have update for version 1.6.0 that has a buggy support for TeamCity 8.

Also, please, note that the plugin is dual licensed now and existing customers can get the Paid Update Available message in Confluence Administration that should be ignored. Please [read more in our blog](#).
