

Talk for Confluence 1.5.0

StiltSoft is happy to announce the release of Talk for Confluence 1.5.0

What's new

Workbox support was added.

Workbox notifications allow you to stay informed about Talk discussions on pages that you watch.

Along with emails, Talk sends notifications to your Workbox about:

- starting a new discussion
- adding a new comment
- resolving a discussion

Please note that Talk Plugin Workbox notifications are available only for Confluence 4.3.3 or higher.

Fixed Bugs

- There were no spacing between paragraphs in Talk discussions.
- Very long comments couldn't be added in the View mode.
