

Smart Attachments 1.18.15

New in this release

The new version of add-on includes the following features:

- Added an option to move the latest document revision from one category to another.
- Added support to validate presence of an attachment in any of the specified categories for the Category not empty validator/condition.
- Added new translations for the validator messages.

Fixed in this release

- Improved behavior of validators, conditions and post-functions with documents and their revisions.
