Annotations for Confluence

Overview

Annotations for Confluence is the app that allows you to find out the author of any piece of text.

Any Feedback?

We are happy to help you. If you have any suggestions you can always:

Vote for existing ideas

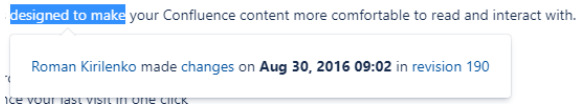

or just email us!

How to use the app

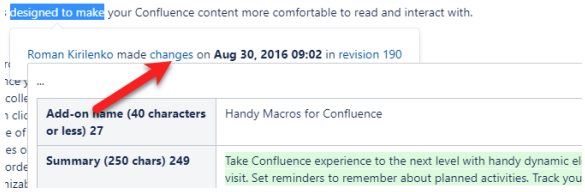

1. Select the text.
2. Click the Annotate icon within the inline dialog.

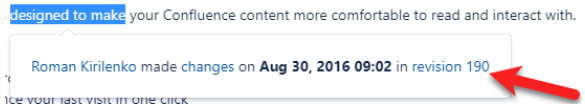

3. Here you are!

4. Hover over the **changes** link to see the diff inline or click the link to open a regular diff.

5. Click the **revision number** link to see the page revision to learn where the changes come from.

Known limitations

You can use Annotations only with the text.
