Table Filter and Charts 4.4.1

Fixed in this release

- Resolved the issue with showing a hidden Total row/column and a source table in the Pivot Table macro when using Scroll Office export to Word.
- Resolved the issue with exporting a table created with the help of the Page Include or Excerpt Include macro and wrapped with the Table Filter macro without applied filters when using Scroll Office export to Word.
- Resolved the issue with empty options when selecting columns for filtration in the Table Filter macro editor in Internet Explorer 11.
- Resolved the issue with failing macros when used inside a cross-domain iframe.
