

InPlace Editor 2.7.3

Add-on gets the tutorial highlighting key features and the Feedback button.

New in this release

- Added the tutorial highlighting the major features of the add-on in the pop-up window. You can access the tutorial by clicking the dedicated ribbon in the top part of any Confluence page. The ribbon can be hidden anytime by clicking the Close icon.
- Added the Feedback button that allows users to quickly proceed to the Helpdesk system and post tickets to our support team.
- Preserved display of the Pencil icon after expiry of the evaluation license.
