

Customer Case - 2/27/2019

New in this release

Added a capability to create a feedback widget for a specific forum.

Now you can collect more feedback from your customers and get insights into the features they want to see in your products and services.

The screenshot shows the 'Smart Attachments for Confluence' page. At the top, there's a blue header with navigation links: 'Пространства' (Spaces) and 'Пользователи' (Users). A search bar and a 'Войти' (Login) button are also present. Below the header, the page title 'Smart Attachments for Confluence' is displayed, along with the creator 'Создатель: Vadim Rutkevich, отредактировано фев 14, 2019'. A purple banner encourages users to 'Join our Slack workspace to get the latest updates on the app development, provide feedback, and vote on features in the backlog.' with a 'Join Slack workspace' button. The main content area features a video player showing a demo of the app. The video title is 'Smart Attachments for Document Management in Confluence...'. The video player has a progress bar at 0:26 / 1:48 and a 'YouTube' logo. To the right of the video, there's a 'Can't get started?' section with two buttons: 'Submit idea' and 'Report Issue'. Below these buttons, a list of features is provided: 'Installing the Add-on', 'Managing documents', 'Managing folders', 'Managing the Folder attachments macro', 'FAQ', 'Release Notes', and 'Privacy Policy'. At the bottom of the page, there's an 'Overview' tab and a blue megaphone icon.
