

# Smart Attachments 1.22.1

## New in this release

The new version of add-on includes the following features:

- Added support for additional system events that are fired by the workflow post-functions.
- Removed support for the Edit in Office feature due to browser issues.

## Fixed in this release

- Resolved the issue with pasting images into the text areas fields and in comments.
- Resolved the issue with showing categories on the Edit Issue screen opened in a new tab.
- Resolved the issue with duplicating files in the Insert attachment dropdown list in the text area fields and in comments.
- Resolved compatibility issues with the Structure app.
- Resolved the issue with the incorrect positioning of the icon in the flag message upon completion of the attachment indexation.
