

Inserting TeamCity macros

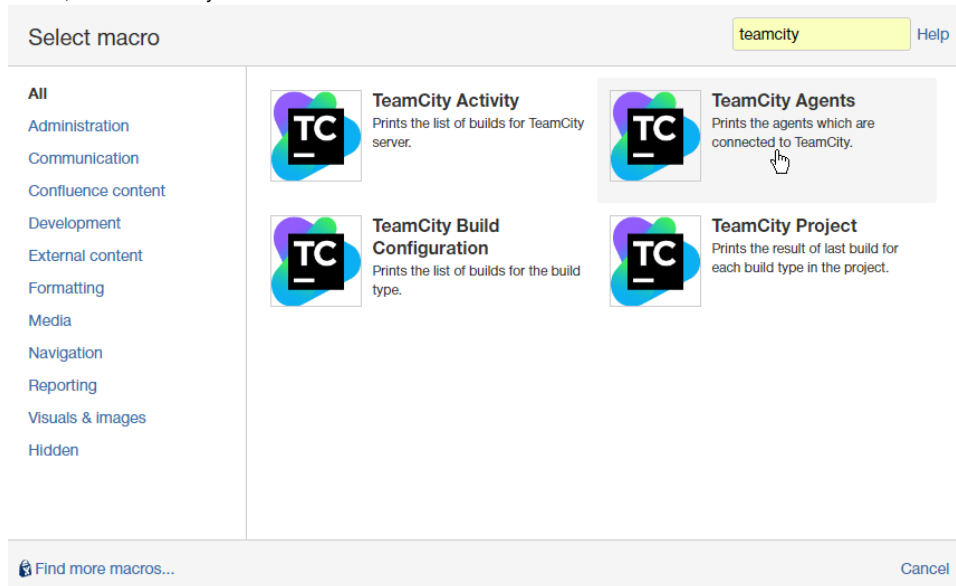

TeamCity Add-on for Confluence allows you to insert the 4 macros, as follows:

- **TeamCity Activity** - shows the recent TeamCity activity;
- **TeamCity Agents** - shows the available TeamCity agents;
- **TeamCity Build Configuration** - shows the build configuration that is being currently used in TeamCity;
- **TeamCity Project** - shows the recent activity for TeamCity project.

Including Macros with the Macro Browser

To add a macro to a page:

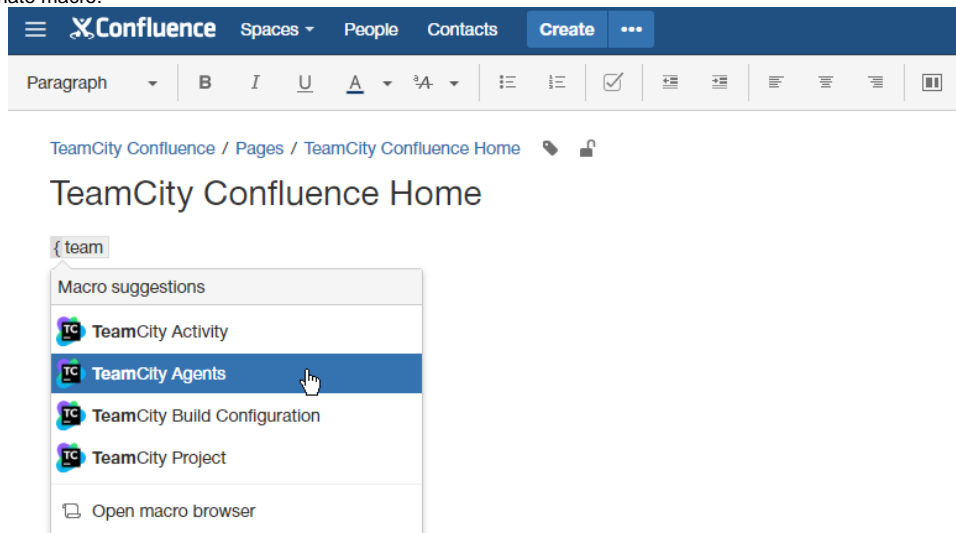

1. Open the appropriate page or create a new page.
2. In the Confluence editor, choose **Insert > Other Macros**.
3. In the **Select Macro** form, enter 'TeamCity' to narrow the list of macros.

4. Select the appropriate macro.

Speeding up macro entry with autocompletion:

1. Type { and the beginning of the macro name.
2. Start typing 'teamcity' to see the list of suggested macros.
3. Select the appropriate macro.

Editing an existing macro

1. Locate the appropriate macro placeholder on the page and click it.
2. Choose *Edit*. A macro dialog window will open, where you can edit the parameters of the macro.
