

Managing Discussions in Talk 1.x

You can perform the following operations on talks and your comments:

- editing your posted comments;
- deleting the wrong or incorrect comments;
- resolving the no longer needed discussions;
- restoring the resolved discussions.

Editing Comments

1. Select the appropriate discussion.
2. Click **Edit** below your comment, make changes to it and click **Save**.

The screenshot shows a discussion window with a yellow background. At the top, there is a header bar with a profile picture of Marvin, the name "Marvin", and a "Resolve" button. Below this, the comment text "Have you read this, HAL9000?" is displayed, followed by "Edit Delete" links. A second comment by "HAL9000" is shown below, with the text "Unfortunately, *yes*." in a text input field. Below the input field are "Save" and "Cancel" buttons. At the bottom of the window is a text input field with the placeholder "Write a comment..."

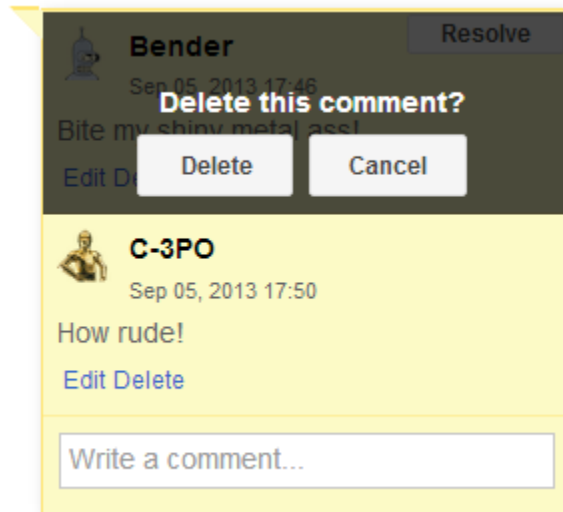

Deleting Comments

1. Select the appropriate discussion.
2. Click **Delete** below your comment and confirm its removal in the prompted form.

Note

When the discussion contains only one single comment, and you decide to delete this comment you will be prompted to resolve the entire discussion.

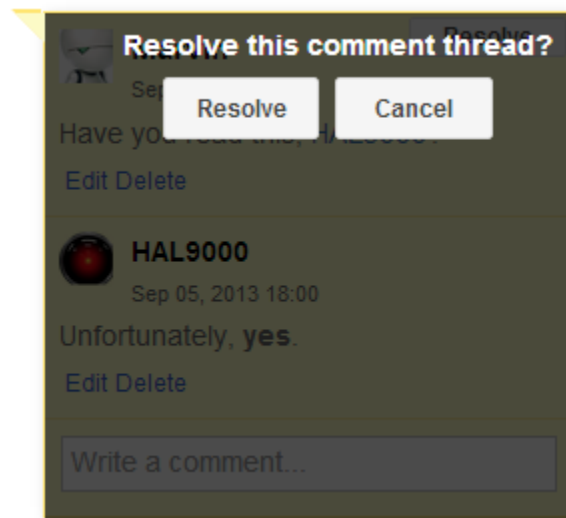

Resolving Discussions

1. Select the appropriate discussion.
2. In the top right corner of the discussion, locate the **Resolve** button and click it.
3. In the prompted form, confirm resolving the discussion.

After resolving, the discussion is removed from the page. All the page watchers will receive a notification that the discussion was resolved.

Starting from Talk Add-on 1.7.10, the discussion can be found in the page history if you open the page version where the talk was not resolved.

Restoring Discussions

If you have accidentally resolved the discussion or you need to restore the discussion resolved by another user, you should follow these steps:

1. Open the appropriate page.
2. Click **Tools** and select **Page History**.
3. In the page history, locate the page version which is prior to the version with the note **'Talk discussion resolved'**.

[Return to Page Information](#)

- Click the *Restore this version* link.
- The page with the talk discussion will be restored so you can continue this discussion

When you revert to the older page version, the page contents that have been added since then will be removed. You will get the page that contains information available before the talk had been resolved.
