# Smart Attachments 2.2.0

## New in this release

**Added the automatic mapping of revisions to documents.**

Now the app will automatically attach revisions to the document if their names are the same.

## Fixed in this release

- Resolved the issue with the error occurrence when creating a new issue on the Scrum/Kanban board.
- Resolved the issue with disappearance of categories when creating new issues in the Structure app.
- Resolved the issue with infinite display of the spinner when moving a test step in the project where the Smart Attachments app is enabled.
