

Viewing Builds within Issues

While viewing a specific issue, you can find out a list of builds that relate to this issue. You can see the list of builds on the TeamCity tab. The amount of information about the build is the same as in the project view. You can quickly transition to TeamCity and view details by clicking the project, branch and build configuration name, or the build number.

You can filter builds by one of the following parameters:

- Status
- Build Period
- Agent
- Project

If you use Jira Cloud with the new issue view, you may need to select the TeamCity tab to display in the issue.

Activity

TeamCity

Build Period: All Agent: All Project: All 15 of 5 builds

Build Number	Build Configuration	Status	Start Date	Changes	Duration	Tests
1000000000	stiltsoft.com > master #4	Failed	25/Oct/18 1:48 PM	Changes (2+)	47s	No tests
1000000001	stiltsoft.com > master #229	Success	25/Oct/18 1:22 PM	Changes (0+)	3m25s	No tests
Smart Attachments for Confluence > Master > dev #221						
Smart Attachments for Confluence > Master > Feature/purple-analytics-tracking #288						
Smart Attachments > confluence.stiltsoft.com > master #4						
Smart Attachments for Confluence > Master > master #220
