Table Filter for Confluence

This version of the app's documentation is outdated. Please find the information you're looking for here:

- Welcome to Table Filter, Charts & Spreadsheets for Confluence!

Overview

Table Filter and Charts is an efficient add-on for running business analysis in Confluence, filtering any kind of data, summarizing it and visualizing with dynamically updated charts.

The solution includes the three macros, as follows:

- **Table Filter** - provides different types of filters for filtering text values, numbers, dates, icons, and states of checkboxes.
- **Pivot Table** - supplies you with tools to aggregate and summarize table data in pivot tables.
- **Chart from Table** - gives you freedom in visualizing your table values with dynamic charts.
