

# Talk for Confluence 2.1.0

*Searching Talk discussions, editing Talk permissions in the View mode and other improvements and bug fixes.*

## New in this release

The new version includes the following changes:

- Search discussions by text and Talk commenters.
- Talk permissions can be viewed and edited in the View mode
- Links to other Confluence pages by pressing `[`.
- Talk comments can be posted by pressing `Ctrl+Enter`.
- Inserting discussions in the View mode is disabled by default.
- Improved compatibility with Zen and Documentation themes.
