The screenshot shows a Confluence page titled "Meeting minutes" created by Lilly Grey. The page content includes a green checkmark with the text "Let's review how we're tracking against goals", a "SUMMARY OF DISCUSSION" section with two paragraphs, and a "NEXT STEPS" section with three checklist items. A second section starts with a green checkmark and the text "Are there any blockers for the next sprint?". The page has a blue header with the Confluence logo, navigation links, and a search bar. A left sidebar contains icons for document, quote, and list. The page is currently empty of any user comments or talks.

 Talk icons contain figures that indicate the total number of comments in Talk discussions.

This screenshot shows the same "Meeting minutes" page after two talks have been added. The first talk, by Jack Stone, is a comment on the text "Our traffic increased 10% last week due to the newsletter." The second talk, by Fred Gilbert, is a comment on the text "Next week, we'll focus on content updates." The Talk icon, which is a megaphone, now has a small orange circle with the number "2" next to it, indicating two comments. On the right side of the page, a panel displays the list of talks, showing the user's avatar, name, timestamp, and the text of their comment. The page content and header remain the same as in the previous screenshot.

 The Talk settings button that is located on the top on a Confluence page shows the number of Talk discussions on a page.
If there's no figure, it means that currently there are no Talk discussions on this page.

The screenshot shows the top of a Confluence page. The header bar is blue with the Confluence logo, 'Spaces', 'People', and a 'Create' button. A search bar is on the right. Below the header, the page title is 'Marketing campaign' by Jack Stone. In the top right corner, there is a 'Talk' icon with a small '4' next to it, indicating four talks. An orange arrow points to this icon with the text 'The number of talks on this page'.

4. When you want to reply to the talk, select it. The talk is highlighted in yellow. Enter your reply into the text field and click **Reply** to post it. The Talk icon that you selected also becomes highlighted, so you can easily track which element the talk is mapped to.
