

TeamCity Integration for JIRA 1.7.2

Upgrade is strongly recommended for users who have already installed the [version 1.7.1](#).

Read the [version 1.7.1 release notes](#) in order to get more information about new shiny features.

New in this release

- Compatibility with JIRA 6.3

Fixed in this release

- Fixed a problem when the add-on could persist duplicated records in the database in the process of indexing.
