

Evernote Integration 1.5.6

Page from note is created as a child now. Also some bug-fixes included.

New in this release

The new version of add-on includes the following features:

- *New pages are created as child of the current page now*

Fixed in this release

- *IE11 compatibility improved*
- *Thumbnails weren't displayed when user is logged out of Evernote*
- *Space characters could be lost near links in old add-on versions*
