

# InPlace Editor 2.9.1

*Atlassian Marketplace licensing is introduced.*

## New in This Release

- Added support for Atlassian Marketplace licenses
- Improved compatibility with Confluence 5.6.1 and Firefox 30/31.

## Marketplace licensing

From this version on, we introduce Marketplace licensing which means you now can upgrade/renew your license the same way as you would update/renew Confluence license. Also, you can rest assured that you always have the latest version compatible with your Confluence.

All users who currently have a valid vendor license can update the add-on for free (disregard the paid update message in UPM).
