Handy Status

[Handy Status](#) allows you to add statuses that can be dynamically changed while you are viewing Confluence pages. Create global or personal sets of statuses, define their colors and take advantage of interactivity on Confluence pages.

Handy Button

[Handy Button](#) allows you to create visually appealing buttons as an excellent replacement for generic links that can be lost among the tons of text.

Handy Timestamp

[Handy Timestamp](#) allows you to track the date and time on Confluence pages when you perform maintenance or update tasks. Indicate the time of their completion in a blink of an eye!

Handy Tip

[Handy Tip](#) allows you to add pop-up tooltips to text, images or emoticons. The macro helps to shorten the length of texts and at the same time makes additional information noticeable.

Handy Cards

[Handy Cards](#) allows you to create cards as page previews using default or custom content. You can create cards from child pages, from pages by labels, and from any pages, including external pages, using the Handy Cards Content macro.

Handy Page Diff

[Handy Page Diff](#) is a convenient mechanism that highlights all the page differences made to the page since your last visit. Forget about Confluence page revisions with their fragmented page changes spread across multiple revisions. See the whole picture of updates and corrections at once!

Handy Reminder

[Handy Reminder](#) allows you to set one-time or regular reminders for you or for your team mates on Confluence pages. You'll no longer miss an important event or task!

Handy Carousel

[Handy Carousel](#) allows you to add interactive galleries or carousels dynamically rotating images or YouTube videos on your Confluence pages. Add more attractiveness and increase the click rate of media content!

Handy Date

[Handy Date](#) is an augmentation for Confluence that allows you to update the dates without opening Confluence editor. Just click the date stamp and pick a new date!

Handy Tasks

[Handy Tasks](#) are Confluence augmentation that allows you to view the progress on tasks and to quickly add new tasks to the list without opening the editor.

Handy Heading

[Handy Heading](#) is a Confluence augmentation that allows you to quickly copy the link to the particular header on the page into your clipboard.

Handy Social Button

[Handy Social Button](#) is a macro that allows you to share any link on Facebook, LinkedIn, and Twitter.
