

Customer Case - 12/5/2014

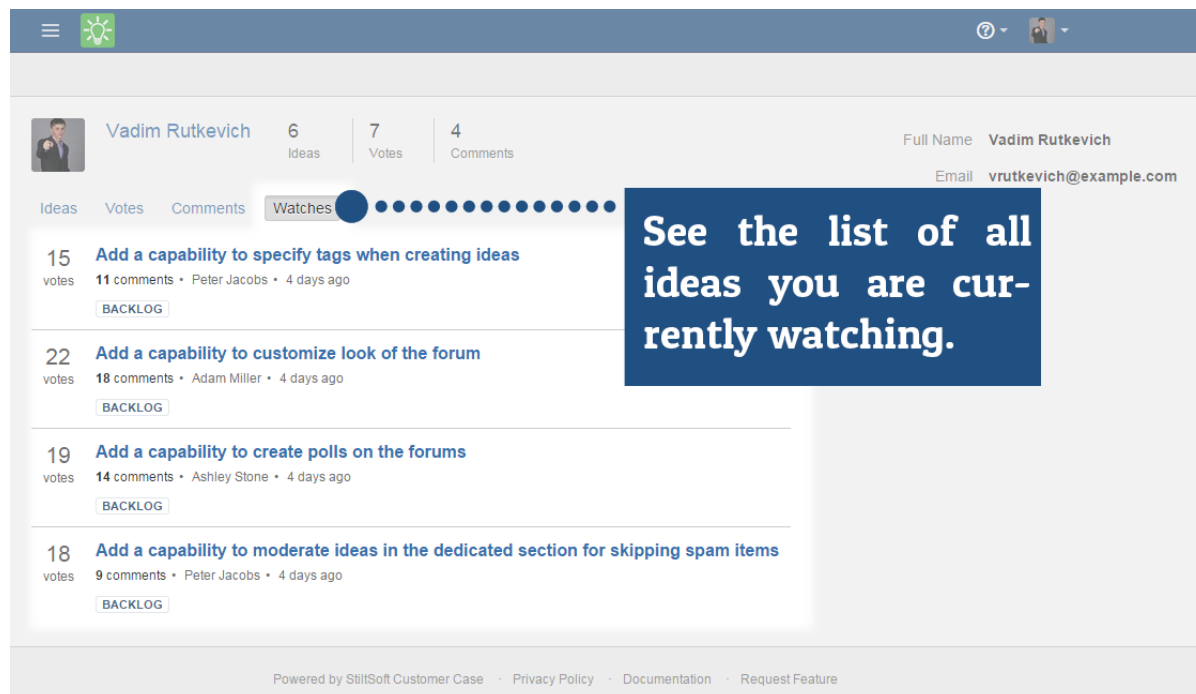

New in this release

Watch ideas and receive notifications

Added a capability to watch ideas and receive notifications about progress on the ideas to the visitor's mail box.

In your user profile you can view the list of ideas that you are watching on the forums of the vendor.

You will receive notifications about all new comments and progress on the idea.

🔖 [CustomerCase] Add support for Crowdfunding

Peter Jacobs **commented** on Add support for Crowdfunding

Re: Add support for Crowdfunding

Sure. We will add support for Crowdfunding in the nearest future. It will take about one week for c

You received this notification because you are watching [Add support for Crowdfunding](#).
You can [unwatch](#) this idea to stop receiving email updates.

The new version of add-on also includes the following features:

- Optimized usage of database resources for low-memory systems.
- Added output of the help indicator prompting the user to sign in to the system before voting for idea or watching it.
