

Table Filter and Charts 7.3.0

New in this release:

- Added support of the Jira Issue macro used in different languages.
- Added a new operation type - multiplication in the Pivot Table macro.
- Added the Color scheme option for the Column chart type.
- Improved the display of labels in charts.
- Improved the display of values inside chart bars.

Fixed in this release:

- Resolved the issue with freezing rows when Jira Issue is inside table cells.
