

App differences in Server/DC and Cloud

This page shows the difference between the Server / Data Center and Cloud versions of the Handy Macros app.

If you need any macro from another hosting type (Data Center/Cloud or Cloud), please submit your request to [our support](#).

Functionality	Available in Server /Data Center	Available in Cloud	Specifics of implementation
MACROS			
Handy Status	✓	✓	On Cloud, status sets are managed globally without division by global, space, or personal sets.
Handy Status Timestamp	✓	✗	
Handy Page Status	✗	✓	
Handy Button	✓	✓	
Handy Timestamp	✓	✓	
Handy Tip	✓	✗	
Handy Cards	✓	✓	On Cloud, Handy Cards can only be created for internal Confluence pages.
Handy Reminder	✓	✗	
Handy Carousel	✓	✗	
Handy Social Button	✓	✗	
Handy Date	✗	✓	On Cloud, the Handy Date macro replaces the Handy Date feature from the Server app. On Cloud, users need to insert Handy Date as a macro.
Handy Poll	✗	✓	
Handy Slider	✗	✓	
FEATURES			
Handy Date	✓	✗	On Cloud, the Handy Date macro replaces the Handy Date feature from the Server app. On Cloud, users need to insert Handy Date as a macro.
