

# Customer Case - 1/16/2015

New in this release

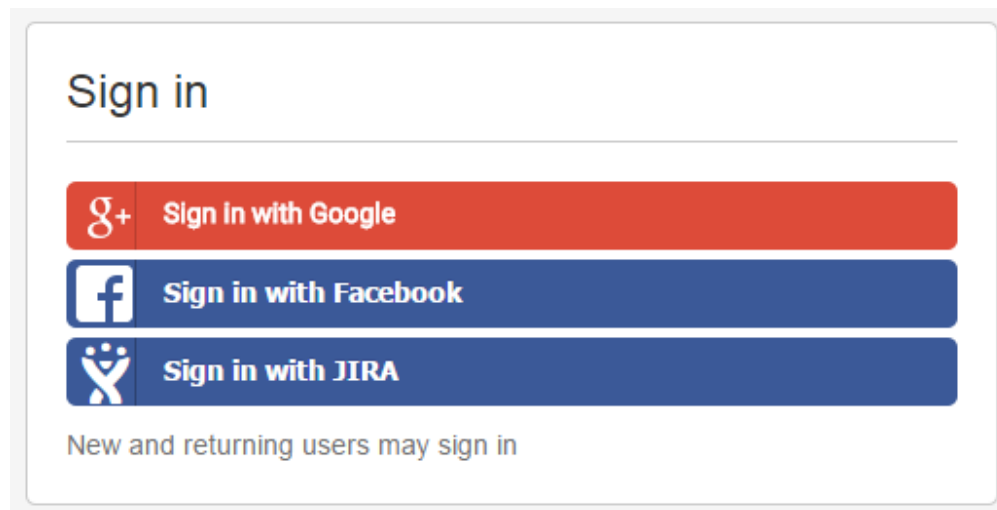

## Custom Domain Names

Added a capability to enter a custom domain name for the entire feedback portal.

## Sign-in with JIRA Account

Added a capability allowing JIRA agents to sign in to feedback forums with their JIRA accounts.

## Instant Transition to JIRA

Added a capability allowing JIRA agents to seamlessly proceed to JIRA while viewing the idea on the feedback forum in Customer Case. JIRA agent can quickly change the idea status, set an assignee or add an internal comment in JIRA.

Add the reports for showing idea breakdown by project and time periods
