

Table Filter and Charts 7.9.19

New in this release:

- The count of marked checkboxes is updated in the total row on their changes.

Fixed in this release:

- Resolved the issue with broken filters in headings when there is a nested Table Filter macro with filters in headings.
- Resolved the issue with Table from CSV/JSON unauthorized connection to some servers in the macro preview.
- Resolved the issue with displaying the same color trendlines for grouped column/bar charts.
