

# Table Filter 7/30/2015

## New in this release

**Added a capability to filter table rows by number ranges.**

Now if you have a table with some numerical data, you can filter this data and get only values that match the selected range.

The screenshot shows the Confluence Table Filter interface. The top navigation bar includes the Confluence logo, 'Spaces', 'People', and a 'Create' button. The page title is 'Table Filter Page', created by admin. The filter configuration shows 'Bounce Rate' with a range from 50 to 85. A blue callout box with white text says: 'Define the appropriate number range and get the numerical data filtered in your table'. The table below has columns: Page, Entrances, and Bounce Rate. The data is filtered to show rows where Bounce Rate is between 50% and 85%.

	Page	Entrances	Bounce Rate			
1	/	343	63,26%			
2	/index.html	17	82,35%			
3	/evernote/	54	81,48%			
4	/talk/	38	60,53%			
5	/blog/category/atlassian-confluence/	35	32	100,75	19	78,95%
6	/blog/2015/01/keeping-track-of-job-applicants/	31	29	103,00	19	78,95%
7	/blog/2015/02/smart-attachments-efficient-attachment-manager-for-jira/	27	24	55,63	22	72,73%
8	/blog/2015/02/jira-customer-case-vs-ideascale/	24	20	113,00	16	75,00%
9	/blog/2013/01/localization-of-talk-plugin-for-atlassian-confluence/	2	2	70,00	2	50,00%

**Added a capability to filter table rows by date ranges.**

Now if you have a table with some dates, you can filter this data and get only values that match the selected date range.

The screenshot shows the Confluence Table Filter interface. The top navigation bar includes the Confluence logo, 'Spaces', 'People', and a 'Create' button. The page title is 'Table Filter Page', created by admin. The filter configuration shows 'Date' with a range from 2015-06-18 to 2015-06-20. A blue callout box with white text says: 'Define the appropriate date range and get the numerical data filtered in your table'. The table below has columns: Page, Date, Pageviews, Unique Pageviews, Bounce Rate, and % Exit. The data is filtered to show rows where the Date is between 2015-06-18 and 2015-06-20.

	Page	Date	Pageviews	Unique Pageviews	Bounce Rate	% Exit	
1	/blog/2014/08/automation-of-routine-processes-with-jira-automation-plugin/	15-06-20	19	19	100,00%	100,00%	
2	/inplace-editor/index.html	15-06-18	19	17	85,71%	42,11%	
3	/video/talk	15-06-20	12				
4	/blog/2013/04/handsfree-add-on-for-confluence-create-confluence-content-by-voice/	15-06-18	9				
5	/addons.html?from=blog-adv	15-06-19	8				
6	/blog/2014/02/atlassian-confluence-look-feel-tricks-changing-confluence-color-scheme/	15-06-20	8				
7	/teamcity/try.html	15-06-18	5				
8	/blog/2014/02/stiltsoft-using-submodules-in-git/	15-06-20	4				
9	/teamcity/free-license.html	15-06-18	3				
10	/blog/2013...how-to-use-the-web-speech-api/	15-06-20	2	1	74,00	0,00%	50,00%

The new version of add-on also includes the following features:

- Added a capability to modify order of filters by dragging the column label to the appropriate position in the filter boxes.
- Added a capability to manually specify the value that is missing in the column for drop-down filters.
