

Customer Case - 9/7/2015

New in this release

Added a capability allowing users of Customer Case to edit description of their own ideas and update their own comments.

Now visitors and users of Customer Case can always update or edit description of their ideas and add corrections or details into comments after posting them.

The screenshot displays the 'Customer Case Forum' interface. At the top, there is a navigation bar with a menu icon, a lightbulb icon, and a user profile icon. Below this, the forum header includes the title 'Customer Case Forum' and the subtitle 'Forum for people wanting to improve Customer Case'. A blue button labeled 'Post a new idea' is visible in the top right corner.

The main content area shows a post by 'Vadim Rutkevich' with the text: 'I would like to have a capability to share my ideas with my friends on Facebook, LinkedIn, Twitter and so on.' The post has '0 Votes' and an 'Edit' link. A blue callout box with white text says: 'Correct or add details into description of your ideas'. Below the post, there are 'Save' and 'Cancel' buttons, and a 'BACKLOG' button.

Below the post, there is a section for '1 comment'. The comment is also by 'Vadim Rutkevich' and says: 'One more addition here. It would be nice to have an option to send a link to idea or idea itself to the email.' The comment has an 'Edit' link. A blue callout box with white text says: 'Edit your comments or update them on the fly'. Below the comment, there are 'Save' and 'Cancel' buttons.
