

Customer Case - 9/25/2015

New in this release

Added a capability to attach one or multiple files when submitting ideas or posting comments.

Now you can easily illustrate your idea with UI prototypes, attach the document with details or provide a diagram showing interconnections or interactions between systems.

Add a capability to configure the look of feedback forums

Paragraph        

All forums look pretty similar, so I would like to customize the look of the forums. I have attached the document with details of what I would like to customize.

Attach files to ideas and comments on the fly
