

Table Filter and Charts 8.0.0

New in this release:

- Added the Table Spreadsheet macro.
- Use Excel-like spreadsheets right in Confluence.
- Embed spreadsheets on Confluence pages and edit them from the page view&edit modes.
- Manage one or multi-tabs display, use cells' formulas, conditional formatting, and other Excel features.
- Create pivot tables and charts based on your data.

The screenshot shows a Google Sheets interface with a spreadsheet titled 'Edit Spreadsheet'. The spreadsheet has columns A through E and rows 1 through 20. The data is as follows:

	A	B	C	D	E
1	Specialist	Resolved	Pending	Added to backlog	Unresolved
2	Parsifal Bengelfield	31	18	1	0
3	Nichol Wellstead	25	23	3	2
4	Rivy Skip	42	7	0	4
5	Mariann Scandrett	36	15	0	1
6					
7					
8					
9					
10					
11					
12					
13					
14					
15					
16					
17					
18					
19					
20					

A context menu is open over the table, showing options like 'Highlight cell rules', 'Color gradation', 'New rule', 'Delete rule', and 'Management rules'. The 'Color gradation' option is selected, showing a preview of the color gradient.
